# ABOUT COMPANY

---

Orax Roots has proudly contributed to several vital projects by providing reliable rainwater drainage pumps and has expanded its services to include Pump Maintenance, Pumping Solutions, and Repair Works for all types of pumps. With a strong focus on performance, durability, and customer satisfaction, the company ensures seamless operations across every project.

The industries served by Orax Roots include Oil and Gas, Petrochemicals, Agriculture, Irrigation, Construction, Mining, Quarries, Coal Ore Handling, Slurries, and Sewage Treatment Plants. With years of experience in Sales, Rentals, and Dewatering Contracts, Orax Roots has built a solid reputation for excellence and reliability. Our expertise covers a wide range of services including Water Transmission, Sewage Treatment, Shoring & Sheet Piling, as well as WellPoint, Open Well, and Deep Well Dewatering systems. Through advanced technology, skilled professionals, and a commitment to excellence, Orax Roots ensures every project is executed with precision, safety, and efficiency.

Backed by a team of highly skilled professionals specializing in pumps, dewatering systems, and contracting, Orax Roots continues to deliver efficient and cost-effective solutions. Today, the company's pumps are operating successfully in major projects throughout the GCC, particularly in the UAE and Bahrain, reinforcing its position as a trusted leader in the dewatering and pumping industry.

# OUR VISION & MISSION

---

## MISSION

Our mission at Orax Roots Trading LLC is to deliver reliable, efficient, and sustainable dewatering and pumping solutions that empower industries and infrastructure across the UAE and Bahrain. We aim to provide superior-quality products and services that ensure project success, environmental responsibility, and long-term value for our clients.

## VISION

We aspire to set new benchmarks in quality, reliability, and innovation while supporting the region's infrastructure growth and environmental sustainability. Orax Roots Trading LLC envisions a future where every project benefits from efficient water management systems, advanced technology, and exceptional service – driving progress and building stronger foundations for generations to come.

# WHY CHOOSE US

---

## **Comprehensive Solutions**

Complete dewatering and pumping services including sales, rentals, maintenance, and turnkey project execution under one roof.

## **Proven Expertise**

Years of experience in managing complex dewatering and groundwater control projects across the UAE, Bahrain, and GCC countries.

## **Quality & Reliability**

High-performance pumps, genuine spare parts, and accessories ensuring durability, efficiency, and minimal downtime.

## **Skilled Team**

A dedicated team of engineers and technicians with deep industry knowledge and hands-on experience in pumps and dewatering systems.

## **24/7 Support**

Round-the-clock technical assistance and on-site service to ensure uninterrupted project operations.

## **Competitive Pricing**

Cost-effective solutions without compromising on quality, performance, or safety standards.

## **Trusted by Major Projects**

Pumps and systems successfully running in key infrastructure, construction, and industrial projects across the GCC, especially in the UAE and Bahrain.

# OUR SERVICE

---

## OVERVIEW

### DEWATERING PUMP SALES

Supply of high-quality diesel and electric-driven dewatering pumps designed for reliable performance in construction, infrastructure, and industrial applications.

### DEWATERING PUMP RENTALS

Flexible short-term and long-term rental options with 24/7 support, ensuring uninterrupted operations for projects across the UAE and Bahrain.

### DEWATERING PROJECTS

Complete end-to-end dewatering solutions including installation, operation, and maintenance for wellpoint, deep well, and sump systems.

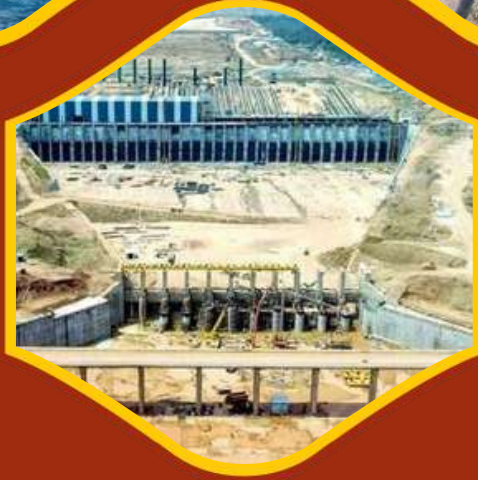

### PUMPS & ENGINE SPARES

Genuine spare parts and components for pumps and engines to ensure durability, efficiency, and reduced downtime.

### HOSES & FITTINGS ACCESSORIES

Comprehensive range of layflat / suction discharge hoses, couplings, valves, and fittings to support all types of dewatering and pumping systems.
